Technical Specifications

Terrazzo Cement Table Football

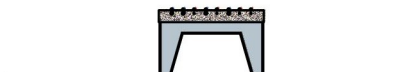

10-17
years

SOLO+
JIN-0022/0023

Available as a free-standing (JIN-0022) or permanently attachable version (JIN-0023).

View from above and cross-sectional view (scale 1:100)

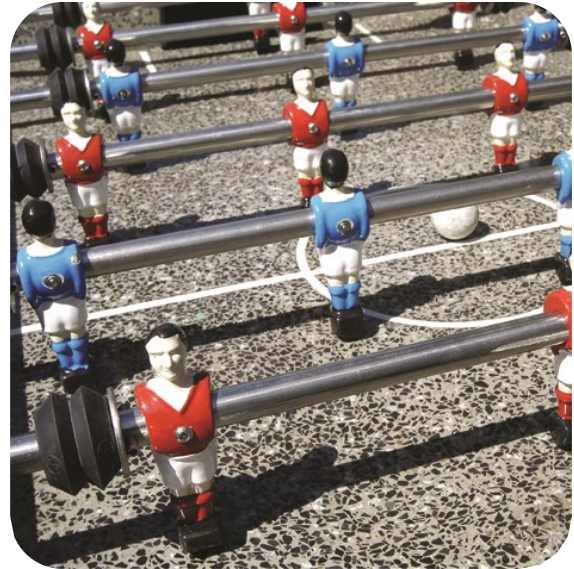

Solo+ range

+ *Robustness that surpasses current standards*

The 16 mm-diameter solid bars are made of highly-resistant stainless steel which has a yield strength three times greater than standard stainless steel.

+ *Exemplary safety*

The table football players are made of powder coated cast aluminium with special vandal-resistant fastenings.

+ *High quality materials*

Platform in terrazzo and reinforced cement cast in an aluminium frame.

+ *Modular leg assembly*

Reinforced concrete leg assembly.

The entire structure is completely free-standing and can be moved after installation if required. It can also be permanently attached to the ground thanks to an anchoring system.
