Barrier Orphée

**JAN-0068/JAN-0069/
JAN-0094/-0095**

JAN-0068/-0069/-0094/-0095

LOUNGE range:

The LOUNGE range combines the comfort of a cosy living room with the practicality of outdoor use.

+ Ideas: The furniture from the new "Lounge" range is made entirely of steel, a material which is more contemporary than ever: durable, fully recyclable and suitable for all kinds of creative designs.

+ Design: New 2D and 3D laser-cutting techniques allow the creation of a wealth of exciting new patterns and shapes.

+ Quality: The use of openwork steel with a special double surface coating also ensures particularly simple and low-cost maintenance.

Direct concreting

Universal system
